

Bassic Overview

Origin Acoustics is the team that invented the architectural loudspeaker speaker category over thirty years ago. Today that same team is producing the finest in-ceiling and in-wall speakers available. These speakers represent patented, state-of-the-art technology that has resulted in unparalleled sound quality that blends seamlessly into any décor.

Bass frequencies are the foundation of any audio performance. They fill the room with impact and drive emotion in every listening session. The Bassic V10 Subwoofer delivers this dramatic and dynamic portion of the sound experience through the matching of rugged and powerful amplification with high-performance drivers.

SUBV10

Features

- **Multiple Input Types**

In order to make the Bassic Subs at home in any system we offer you several connection options. There are left, right and LFE line level inputs as well as speaker level left and right inputs and outputs. That means these subs will integrate with any system from the most state-of-the-art AVR to your customer's old stereo receiver he brought back from the war. Whichever connection you choose, the Bassic Subs will deliver incredible, room-filling, low frequency reinforcement to any environment.

- **Woofer Cone Materials**

Origin woofers were designed from the ground up using only the finest materials. Bassic Subwoofers have a high power, long-throw woofer with aluminum cone and heavy rubber surround.

- **Quality Audio Enclosure**

Careful attention to the enclosure is critical to the final result. Everything from the high-density fiberboard to the layout of the internal bracing, this cabinet is designed and built with an exactness rarely found in an audio enclosure.

- **Magnetically Secured Grille**

Since the grille is magnetically attached, it is easy to remove, adjust and replace regardless of the sub's position in the room.

Specifications

Model Number	SUBV10
Part Number	SBXSUBV100600
Woofer size	10" (254mm)
Amplifier Power (RMS)	Class D 150W
Tuning type	sealed
Frequency Response	26 Hz \pm 3dB
Crossover Frequency	40 Hz to 160 Hz (bypassed with LFE input)
Dimensions (WxHxD)	13"x13"x13" (305x305x305mm)
Inputs	Line-level, speaker-level and LFE
Outputs	Speaker-level
Controls	Front-accessible level, crossover and phase
Cabinet Finish	MDF with Black Poly-Veneer Finish
Grille Material	Black Cloth
Weight (w/o box)	45 Lbs (21kg)
